PALLET WRAP, BUBBLE WRAP, CLEAR TAPE & BUFF TAPE

PALLET WRAP

Our 7-layer pallet wrap (also sometimes called "stretch wrap" or "shrink wrap"), is used for wrapping objects and for stabilising goods on pallets.

Our pallet wrap is produced on world-class machinery and offers better strength and incredible stretch. Any size, micron or colour can be custom produced, subject to minimum quantities. We also offer coloured pallet wrap (blue, green and black) as a special order, subject to minimum quantities.

Please call or email us to discuss any questions you have in relation to your pallet wrap needs.

Take advantage of the superior strength! Save money by buying according to equivalent strength! For example, a 15 micron 7-layer roll of pallet wrap has approximately the equivalent wrapping strength of a normal 20 micron roll.

We provide our customers with the best shrink wrap solution for their particular needs.

We provide each option at an excellent price, and importantly the quality and our industry-leading speed of production time will make your experience much more positive.

You are welcome to specify, as per your requirements, the exact thickness of the sheet (in microns) and the width and weight of each roll.

The range of the thickness you may specify is anywhere between 25 and 150 microns. Minimum quantities apply.

In terms of colours, clear is the most popular but colour tints can be produced.

Please also specify whether you need regular or centre-folded shrink film.
